EU CRASH COURSE

23-24 October 2024 | Brussels, Belgium

We are excited to announce an upcoming **EU Crash Course** tailored specifically for Nordic battery companies. This event will deep dive into EU regulations in the battery value chain, investigating topics like recycling, material passports, and carbon borders.

Save the date!

Date: 23-24 October
Place: Brussels, Belgium

Outline: Lunch-to-lunch program
Option to join site visits 24 October

Cost: A small participation fee will be charged to support costs related to organising this event. Participants are responsible for their own travel-related reservations and fees, such as flights, hotel, transfers, and meals outside of the programme.

Why join?

- Gain insights into the latest EU regulations impacting the battery industry
- Learn about available EU funding and support for battery projects
- Stay ahead of market trends and connect with industry and EU experts

A formal invitation with more details on the program will follow soon.
